PROFILE

Software developer building scalable mobile and web applications with **React, React Native, Next.js,** and **TypeScript**. Strong foundation in data structures, system design, API integrations, and cloud deployments (AWS, GCP). Experienced in fintech product development, performance optimization, and production-grade release management.

EDUCATION

Monad University

Hapur, India

Bachelor of Computer Applications (BCA)

2021 – 2024

- Achieved top 5% academic standing in the batch
- Coursework: C/C++, Data Structures, DBMS, Web Development, Computer Networks, Operating Systems.

SKILLS

Technical: React, React Native, NextJS, JavaScript (ES6+), TypeScript, SQL, Tailwind CSS

State Management: Zustand, React Context, Redux

Styling: Tailwind CSS, Material UI (MUI), Bootstrap, SASS (SCSS)

Libraries & Frameworks: jQuery, Framer Motion, SVG Motion

APIs & Networking: REST API, Fetch API, Axios

Tools: GCP, AWS (S3, EC2, Amplify, Route 53), Firebase, VPS, Excel

EXPERIENCE

Neo Infra Fintech Inclusion Pvt Ltd (Full-time)

Noida, India

Software Engineer

Aug 2024 – Jan 2026

- Built and maintained cross-platform fintech mobile apps using React Native.
- Integrated REST APIs and managed state for smooth, scalable performance.
- Fixed production issues and supported app deployments for stable releases.

Extended Web Apptech LLP (Full-time)

Hyderabad, India

Software Engineer

Aug 2021 – Jun 2024

- Built a React Native ride-booking app featuring authentication, booking, and live ride tracking.
- Integrated REST APIs for user management, ride allocation, and payments.
- Optimized API handling and UI rendering to improve booking reliability and user experience.

PROJECTS

KarnaCab – Ride Booking Application

Jan 2025 – April 2025

- Developed a ride-booking app for riders and drivers with real-time tracking and authentication.
- Built using React Native, TypeScript, and Google Maps integration.
- Published on the Play Store and App Store with active users and positive engagement.

AcecogAT AI Platform

Oct 2024 - Feb 2025

- Built a responsive web app from Adobe XD with pixel-perfect UI.
- Implemented AI CogAT practice tests, instant explanations, videos, and a chatbot.
- Integrated payments and APIs, achieving 95+ Lighthouse performance.

SmartCA Platform – Analytics System

Aug 2025 – Sep 2025

- Built a subscription-based web platform for Chartered Accountants to manage operations efficiently.
- Developed using React, TypeScript, and Tailwind CSS with a scalable, modular architecture.
- Actively used by leading CAs for GST invoicing and bank reconciliation workflows.

Project Management System

Sep 2025 – Oct 2025

- Built a role-based project management web app.
- Added real-time task chat between assignees, managers, and admins.
- Implemented secure login and responsive dashboards.

ACHIEVEMENTS

- Built and managed a 700+ member developer community on [GitHub](#)
- Recognized internally for automation initiative, reducing manual effort by 50%.
- Runner-up in a coding competition among 900+ participants.
